Staff is very friendly and compatible. You can work with them with client cum as friend. Really any software can be developed here with friendly environment

Suggestion

1. Also adapt more language which are used in advanced technologies.
2. Also use more models such as spiral(for risk purpose) and many more.
3. Should expand the company.

Date: 13th July 2024

We are glad to inform you that **Mr. Pranjal Save** has successfully completed his internship at **CSism Technologies** from 3rd June 2024 to 13th July 2024.

During his internship, he was exposed to the various activities in HTML5, CSS3 & PHP

We found his extremely inquisitive and hard working. He was very much interested to learn the functions of our core divisions' and willing to put his best efforts and get into the depth of the subject to understand it better.

His association with us was very faithful and we wish his to all the best in his future endeavors.
