Thursday	19-06-2025	PHP	Focused on Contact and About pages: used Flexbox/Grid, improved typography and spacing.
Friday	20-06-2025	PHP	Final review of website layout. Fixed mobile inconsistencies, documented changes.
Saturday	21-06-2025	PHP	Final touch-ups post mentor review. Checked links, optimized images, validated HTML/CSS.
Monday	23-06-2025	PHP	Connected single page to database using PHP and MySQL.
Tuesday	24-06-2025	PHP	Connected all website pages to database ensuring dynamic data flow.
Wednesday	25-06-2025	PHP	Created Admin Panel for managing website content.
Thursday	26-06-2025	PHP	Added backup and restore option for submitted data.
Friday	27-06-2025	PHP	Completed full database recovery and backup system.
Saturday	28-06-2025	PHP	Implemented mail functionality after form submission.
Monday	30-06-2025	PHP	Added Enquiry button to product pages with pre-filled details.
Tuesday	01-07-2025	PHP	Added Read More sections for longer messages in Admin Panel.
Wednesday	02-07-2025	PHP	Created modern slider for a dressing company website.
Thursday	03-07-2025	PHP	Enhanced UI with animations and improved user experience.
Friday	04-07-2025	PHP	Used Apax for smooth loading animations across the website.
Saturday	05-07-2025	PHP	Tested all functionalities and began preparing documentation.
Monday	07-07-2025	PHP	Started SEO optimization and added meta tags for better search engine visibility.
Tuesday	08-07-2025	PHP	Worked on advanced contact form validation with PHP and JavaScript.
Wednesday	09-07-2025	PHP	Integrated captcha verification to prevent spam submissions.
Thursday	10-07-2025	PHP	Improved website accessibility: ARIA labels, alt text, and keyboard navigation.
Friday	11-07-2025	PHP	Created sitemap and robots.txt for deployment readiness.
Saturday	12-07-2025	PHP	Performed code refactoring and removed unnecessary files.
Monday	14-07-2025	PHP	Worked on performance optimization: reduced image sizes and minified CSS/JS.
Tuesday	15-07-2025	PHP	Implemented lazy loading for images and sliders to improve page load time.
Wednesday	16-07-2025	PHP	Conducted security audit: validated inputs and protected against SQL injections.
Thursday	17-07-2025	PHP	Added SSL support for hosting, updated links to HTTPS.
Friday	18-07-2025	PHP	Started deployment process on secondary hosting platform for redundancy.
Saturday	19-07-2025	PHP	Created detailed deployment and rollback plan.
Monday	21-07-2025	PHP	Conducted user testing for UI/UX improvements and collected feedback.
Tuesday	22-07-2025	PHP	Fixed issues reported from user testing sessions.
Wednesday	23-07-2025	PHP	Improved dashboard for Admin Panel with better analytics view.
Thursday	24-07-2025	PHP	Added pagination for product lists to improve loading times.
Friday	25-07-2025	PHP	Started creating API endpoints for mobile app integration.
Saturday	26-07-2025	PHP	Documented all API endpoints and tested with Postman.
Monday	28-07-2025	PHP	Worked on project presentation and slides preparation.
Tuesday	29-07-2025	PHP	Revised project documentation and README for GitHub.
Wednesday	30-07-2025	PHP	Tested website across multiple browsers for compatibility.
Thursday	31-07-2025	PHP	Improved error handling and logging system for backend.
Friday	01-08-2025	PHP	Conducted backup tests and validated data restore process.
Saturday	02-08-2025	PHP	Created user manual and help section for the website.
Monday	04-08-2025	PHP	Finalized UI/UX for mobile and desktop versions.
Tuesday	05-08-2025	PHP	Performed stress testing for database and server handling.
Wednesday	06-08-2025	PHP	Updated version control repository with latest code.
Thursday	07-08-2025	PHP	Prepared a video walkthrough of the project.
Friday	08-08-2025	PHP	Created marketing banners and assets for project showcase.
Saturday	09-08-2025	PHP	Met with mentor for final review and approval.
Monday	11-08-2025	PHP	Resolved last-minute issues before deployment.
Tuesday	12-08-2025	PHP	Performed final checks on email and notification systems.
Wednesday	13-08-2025	PHP	Monitored server performance after deployment.
Thursday	14-08-2025	PHP	Verified DNS propagation and SSL activation.
Friday	15-08-2025	PHP	Held a project demo session with team members.
Saturday	16-08-2025	PHP	Archived project files and created project closure document.
Monday	18-08-2025	PHP	Submitted final project to mentor and documented learning outcomes.
Tuesday	19-08-2025	PHP	Prepared internship report summarizing 12-week journey.
Wednesday	20-08-2025	PHP	Participated in feedback session and noted improvements.
Thursday	21-08-2025	PHP	Updated personal portfolio with project details.
Friday	22-08-2025	PHP	Created LinkedIn post about project completion and learning.
Saturday	23-08-2025	PHP	Celebrated project completion with team meeting and reflections.
